Several Servicemen Home For Christmas

Many a Bashaw home was brightened this Christmas by the return of the presence of several young men who spent several previous Christmas in distant parts with our armed forces. These men previously reported include:

Mr. Leslie Knochel and Mr. Frank Knochel, with 4 1/2 and 4 years of previous service respectively.

Lac. Fred Lowder, 18 months over in RCAF ground crew;

Trapper Martin Dugal, 3 years overseas with the 4th Armoured Brigade;

Cpl. Verne Schultz, who during one year's service overseas acquired the most interesting collection of souvenirs yet seen.

Also home just recently but not yet contacted by us are Ivan Reed, J. L. Elmer and Nick Kirk.

Shower Held For Christmas Bride

On Friday, Dec. 28, a large crowd gathered at the home of Mr. and Mrs. H. D. Shultz, at a shower in honor of Mrs. C. A. Robinson, of Round Hill.

The bride was formerly Miss Ruth Green of Dundas, who had been teacher of Rockley Bay school for five years, and later proprietor of the Snack Shop at Bashaw. Mrs. Robinson is a present teacher on the Canmore Elementary staff.

The evening was spent in playing cards, after which a delightful lunch was served by the hostess.

Mr. J. G. Robinson made the remarks, and Mrs. C. A. Robinson, who had been teacher of the school, made the remarks.

Wedding Bells

St. Peter's Lutheran church (round) was the scene of a pretty wedding on Jan. 26, 1946, when Mr. and Mrs. Ed. Thompson were united in marriage. The bride was Miss Edna Thompson, daughter of Mr. and Mrs. Geo. Rake and Cpl. Clarence Thompson of Vaux B.C.

Entering the church on the arm of her father, the bride made a pretty picture in her gown of white tulle and lace with the customary veil and a headpiece of apple blossoms. She carried a pretty bouquet with a gift from her mother at Canmore, from which long ribbons, tipped with pearls. Her veil jewelry was a string of pearls.

The bridesmaids were Miss Freda Rake, sister of the bride, who wore white tulle and lace with a gift from her mother at Canmore, from which long ribbons, tipped with pearls. Her veil jewelry was a string of pearls.

Mr., Mrs. E. Sandeath Married Forty Years

On Friday evening, Jan. 4th, the W. J. Sandeath and his wife, Mrs. E. Sandeath, were united in marriage at the home of Mr. and Mrs. Jack Tait's to a home and extended congratulations and best wishes to the bride and Mrs. E. Sandeath on the occasion of their 40th wedding anniversary.

A few friends of the bride were present, including Mrs. Farnam, Mrs. Lund, Mrs. Gordon Brown and Mr. Ed. Hume.

Mr. Jack Tait, the president of the W. J. Sandeath, presented a paper of money, to which Mr. and Mrs. Sandeath very graciously replied.

A number of other sympathetic addresses of congratulations were extended to Mr. and Mrs. Sandeath.

A delicious lunch was served including a beautifully decorated wedding cake, portions of which were supplied by the bridesmaids, led by Mrs. H. Brown and decorated by Mrs. R. Whitehouse.

Holden Man Buys Local Billiard Hall

On Thursday last a business trans-
 action of considerable importance was con-
 sidered, in which Martin Stylo became
 owner of the local billiard parlor, which
 for the past two years has been owned
 and operated by Henry I. Coulter.
 Martin Stylo has recently returned
 to his home at Hildesheim after three and
 a half years with the RCAF. He served as
 a navigator and was one of the top of
 his class.
 His friends gave him a huge feast
 Thursday night at a local hall. A good
 time was had, though cold and storm
 weather hampered the attendance to some
 extent. He has not completed plans for
 the place.

H. J. Dahl Elected To Village Council

Village Council's sessions on Mon-
 day morning of the week saw H. J.
 Dahl elected as replacement. This is
 Mr. Dahl's first term on Council, and
 though for many years has served as assistant
 of Village council and then as councillor
 with Village Council. Mr. Dahl is the
 owner of a very large business in Calgary and
 Edmonton.

J. J. Smith, who retired after several
 years as the Council's assistant, stated
 that he would not stand for re-election.

Bonspiel Opens With 21 Rinks Participating

Bashaw Curling Club's second annual local bonspiel opened on
 Monday with nineteen cubs rinks and the Hammond and Paine rinks
 from Fortin and prepared to battle for curling honors and a share of
 the "jewelry" listed below. The ice is keen, as also is the competi-
 tion, as some of the veteran skippers who went down to defeat in
 past years are free to compete. Spectators crowd the rink and the
 air is charged with excitement.

GOOD ROADS PAY DIVIDENDS

"Can and think every man for good
 roads whether they have them or not."
 The Provincial Government is now
 responsible for the good roads in
 the north in Alberta. It is a costly
 proposition but because it reflects the
 roads become less, less and less
 and greater too.
 Let us all help the Provincial Gov-
 ernment to discharge its obligation to
 be giving them the necessary encourage-
 ment to start now on the 10-year \$120-
 000,000 program planned by the De-
 partment of Public Works. Now is the
 time to start.
 You can look the A.M.A.'s campaign
 for better roads by becoming a member.

Feb. 25 We are sorry to report Mr. E. W. Wagon is a patient at Westlake home.

Mr. and Mrs. C. A. Johnson entertained at a turkey dinner on Feb. 20, the occasion being Mr. Johnson's 70th birthday anniversary. Relatives from distant points, being unable to be present, offered their congratulations either by telephone or card. As it was the eve of the celebration of this date, conversation turned to old times and conditions, both happy and otherwise, and there was a lovely time had. Those present were Mr. and Mrs. P. P. Pugh, Mr. and Mrs. C. A. Johnson, Mr. and Mrs. L. Johnson, the C. W. Johnsons and August Johnson.

Mr. and Mrs. W. W. Wagon entertained at the 21st to be present at the marriage of the latter husband, Albert Wagon of Westmore, in Mrs. Wagon's home at Uthir Ridge. The birthday time was 1/2 in charge of John C. Wagon during the evening.

Dinner guests at the Ed Taylor home on Sunday were Mr. and Mrs. E. Johnson and family of Dams.

**Start Building For
New Lockyer Plant**

Swenson & Son announce that work
that construction has started on the addi-
tion to their building in which they will
set up the equipment for their new fire
locker plant.

The work is being directed by Con-
struction Team Drive, and construction is
being pushed forward with all possible
speed. All critical building material has
been secured, and the lockyer plant equip-
ment is now on the way. The lockyer
plant should be ready for use before the
middle of the winter.

Railway Chief Honored By U.S. University

Robert Charles Vaughan, chairman and president of the Canadian National Railway, was awarded an honorary degree in Doctor of Science by the University of Toronto in a four-day commencement of Clark College of Technology at Putnam, N.Y., by Doctor John A. Ross on May 10.

In his address to the graduates, promising Mr. Vaughan for the future, Dr. R. E. Elliott, of Waterloo, N.Y. vice president and treasurer of the University, said that the Canadian National railway was "one of the great forces in the world."

"When called to the rescue," he said, "in the emergency of the war, it was the backbone of the nation."

Mr. Vaughan was the recipient of the two four-hour degrees in the afternoon. He was also named for his Harvard preference transportation at Harvard University.

These are the first such awards to be conferred on a Canadian by a U.S. university. The first such award was given to a Canadian, Sir John A. Macdonald, in 1882.

Among other honor degrees were conferred on Doctor J. Hoover for his work in the war, and on Dr. J. H. P. Morgan for his work in the war.

In accepting the honorary degree from Clarkson, Mr. Vaughan and Mr. Cunningham joined a distinguished international assembly of engineers, educators, industrialists and business men who are responsible for the future of the world's transportation systems.

Getting Tied in Paris in Quite A Complicated Job

Here is how you go about getting a taxi in Paris today.

You go to the precinct police station, tell the desk sergeant that you want a taxi and show credentials proving that you are entitled to one.

If you pass that test, the sergeant calls for a cab, which comes to the police station from wherever it is available. You have to pay for the driver's ride to get you to the top of your trip. Your appreciation for the driver's service is optional.

Get Employers and Workers Well Alike

During the war organization of manpower was made possible through co-operation of employers and workers.

This co-operation is no less necessary to enter in organization the employment market during the present critical period.

Some manpower controls still remain. There are still laws that are aimed at assisting in organizing the employment market.

Price Control And Rationing Information

Q—Can you tell me when the rationing sugar/compuls will be developed?

A—There will be ten pounds of sugar rationed each year. The first half of this rationed sugar allotment will be available to consumers in the form of ration tickets to be delivered with the first \$10 to \$17 delivered weight. The balance of the sugar pounds may be purchased on ration tickets after \$17 to \$21 is delivered weight.

Experiments Show That Food Is an Appellant Whined in Many Ways

One may find interesting information in readings for the last part of the month and thus also be learning simple chemistry, which could lead to a study of how these important foods.

Experiments showing that "the addition of a small amount of salt to the food of the laboratory rat" is possible, and that these were conducted by the Federation of American Societies for Experimental Biology.

Barrett, chief of the Department of Chemistry, University of Arkansas, is the author of the study.

It should be noted that the study was not a study of the effect of salt on the growth of the rat, but rather a study of the effect of salt on the growth of the rat.

Canada And The Food Crisis

IT IS REMARKABLE that the end of the war did not also bring an end of privation and suffering among the people of the world. In contrast it has left a few fortunate countries, of which Canada is one, though are faced with food shortages which are expected to be more than they experienced during the war. Crop failures in many parts of the world the breakdown of transportation facilities due to the war, and the lack of shipping space in the post, have all contributed to the acute conditions which now exist in respect to the world food supply and which are among the foods most urgently needed at the present time and this need will continue to be urgent at least during the next few months or until the 1946 cereal crop is harvested.

our four years, the U.S. is expected that about 100 million tons of garbage will be produced. It is the success of the plan to export more food, by reducing the consumption wherever possible and by eliminating waste, particularly in the use of these products. We are reminded that we have suffered from the lack of food in this country. Only a few nations have rationed and this has been in most cases for the purpose of a ration distribution rather than because of acute shortages. The people have then accepted rationed diets in no already major diet in order to do what they can to relieve the world food situation, and there is no reason why we should not do the same. The people of the United States are a nation as possible to vote what Prime Minister King has the "urgent and pressing need" of those in their condition.

Canada's Oil Production

THE CURRENT output of Canada's oil production is estimated at 100,000 barrels per day. This is a significant increase over the 1940 output of 50,000 barrels per day. The increase is due to the discovery of new oil fields and the expansion of existing ones. The oil is produced in the provinces of Alberta, Saskatchewan, and Manitoba. The Alberta oil is the most important, as it is the only one that is produced in large quantities. The Saskatchewan oil is also important, as it is the only one that is produced in the western provinces. The Manitoba oil is the least important, as it is the only one that is produced in the central provinces. The oil is used for a variety of purposes, including heating, power generation, and transportation. It is a vital part of the Canadian economy.

YOUTH OF HOLLAND WILL GET SOUVENIR BOOKS
 A book bought through Holland will also contain a review of a book, "Holland and the Canadians," published by the Canadian Council on International Relations. The book is a gift from the people of Holland to the youth of the country. The book is a review of the part of the war the Canadian army and the work done by Canadians and Dutch in the country. Profusely illustrated with many fine photos of the Canadian army and photos with the book is written on heavy paper. Of the 30,000 copies, 100 have been

Do you happen to want a camera, adding machine, typewriter, radio, or any of the loads of goods and fountain pens and pencils? Do you want any other supplies like stationery, pencil sharpeners, or Bostitching, hand-cranked electrical sewing machines, vacuum cleaners, or a new car? Or, for example, radios, or alarm clocks, or vacuum bottles, or lobby pads, or any commonplace goods that you need? My review program hasn't got around to reviewing it. You name it and I'll give you the street address. Of course, you may have to pay a small down-deposit, but if you don't have been right along it makes an almost instant delight in the way it works with the street address and those things who we could not buy.

THE BARBERS ON

REPEATING FLAME SILE

The Chemical and Engineering News says a repeating flash bulb that can be used over and over for brilliant daylight quality photograph illumination has been developed. It looks like an ordinary injection lamp with a three-pronged porcelain base, but it contains a little glass coil, filled with the rare gas neon, that produces a brilliant light by providing the light. From a few

yards away it would look as bright as the sun, and it gives off this light in one five-thousandth part of a second. 2873

Tribute to the Farmers

Friday, June 21, has been set aside as "Farmers' Day" throughout the Dominion of Canada. On this day the first crop of hard wheat is harvested in the Prairie Provinces, and in the United States the wheat harvest is in full swing.

The importance of hard wheat to the Canadian people is well known. It is the mainstay of the Canadian food supply.

The Canadian people are proud of their hard wheat. It is a symbol of their hard work and their contribution to the world's food supply.

New Locker Plant In Full Operation

The Locker Plant in Bathaw is in full operation, ready to give any one contract with locker and locker personnel.

Recent news made in connection with this plant by Tom Dymon, contractor. Only five weeks elapsed between foundation and operation, which is something of a record for construction of this type, which of course includes excavation, locker construction and interior painting. The installation is completed by the firm installing the machinery to be the show place of Alberta for a new enterprise over Bathaw's work.

The store front has still to be re-constructed and Mr. Dymon has promised that it will be done as the work there. This is in contrast of running the front and streeting scene. An appropriately located sign will be added.

The Bruce Johnson Electric Co. who supplied and installed the radiating machinery, admit that this plant has under the person from their Fort Saskatchewan plant as a most show place for the new enterprise.

Mr. Dymon has now added to the most Market's stock and with his 25 years of lock-making and five years locker experience will be of tremendous service to the community.

The Bruce Johnson Electric Co. is in the industry, and many people regard it only as a source for work. But this is only a small part of its value. The freeing of business is a tremendous relief to the business owner in the old method of making in his workshop.

In addition to other services it is planned to handle frozen fruits and vegetables for the record for sale in the community.

There are said to be only 4000 lockers in Canada, and with their use and high reputation and reputation, the locker plant is one of a very high class service and modern operation.

Dominion Day Sports Score Success With Large Crowd And Sunny Skies

Local weather and a splendid program of sport and amusement came to make Bathaw's annual July 26 celebration one of the most enjoyable on record, which seemed to be the opinion of the masses who were held merely through the past of the fair grounds on Monday. The fair grounds by the way had been given a lot of attention in advance of the day, and very few people were heard on all sides regarding the good work which had been done.

BASKETBALL

The boys were really pleased with the brand of basketball presented in the one team tournament. Bathaw and Bathaw in the final game, which was won by Bathaw 23 after nine shot-pointed minutes. The winner did so in their steady play, but Bathaw appeared to be a decided "dog" up to the seventh minute.

Other teams included: Bathaw 1, Bathaw 2, Bathaw 3, Bathaw 4, Bathaw 5, Bathaw 6, Bathaw 7, Bathaw 8, Bathaw 9, Bathaw 10, Bathaw 11, Bathaw 12, Bathaw 13, Bathaw 14, Bathaw 15, Bathaw 16, Bathaw 17, Bathaw 18, Bathaw 19, Bathaw 20, Bathaw 21, Bathaw 22, Bathaw 23, Bathaw 24, Bathaw 25, Bathaw 26, Bathaw 27, Bathaw 28, Bathaw 29, Bathaw 30, Bathaw 31, Bathaw 32, Bathaw 33, Bathaw 34, Bathaw 35, Bathaw 36, Bathaw 37, Bathaw 38, Bathaw 39, Bathaw 40, Bathaw 41, Bathaw 42, Bathaw 43, Bathaw 44, Bathaw 45, Bathaw 46, Bathaw 47, Bathaw 48, Bathaw 49, Bathaw 50, Bathaw 51, Bathaw 52, Bathaw 53, Bathaw 54, Bathaw 55, Bathaw 56, Bathaw 57, Bathaw 58, Bathaw 59, Bathaw 60, Bathaw 61, Bathaw 62, Bathaw 63, Bathaw 64, Bathaw 65, Bathaw 66, Bathaw 67, Bathaw 68, Bathaw 69, Bathaw 70, Bathaw 71, Bathaw 72, Bathaw 73, Bathaw 74, Bathaw 75, Bathaw 76, Bathaw 77, Bathaw 78, Bathaw 79, Bathaw 80, Bathaw 81, Bathaw 82, Bathaw 83, Bathaw 84, Bathaw 85, Bathaw 86, Bathaw 87, Bathaw 88, Bathaw 89, Bathaw 90, Bathaw 91, Bathaw 92, Bathaw 93, Bathaw 94, Bathaw 95, Bathaw 96, Bathaw 97, Bathaw 98, Bathaw 99, Bathaw 100.

Surveying Root Rot of Corns

From about the second week of June to the first week of July large areas of corn of the wheat crop

on fallow in the Prairie Provinces will be sure to turn yellowish brown in colour. This trouble is most frequently encountered on land which has been long under cereal cultivation. It may reduce the yield of wheat on an average of ten or more bushels per acre. Oats and barley may be attacked if grown after fallow.

the application of ammonium phosphate (11-52). This is best done at seeding time by using a fertilizer attachment to the seed drill. Twenty pounds per acre are recommended for the drier areas and 30 to 40 pounds where moisture conditions are more favorable.

rot, and may increase the yield by 10 bushels per acre. Nothing can be done about control this year but, for next year, make arrangements to have a better drainage system available, and order your phosphate early.

The Intriguing Story Of A Fabulously Rich Gold Mine For Which Miners Sought In Vain

THERE is a fragrance in the air of hot rivers and hot men as the famed McLeod Mine members in the heart of the north-Noblesburg for which men have searched for 60 years only to have them and leave a trail of blundered well-grounded shrewdness in And then there is the famous Lord Landon Mine of Southern Africa which geologists have sought through the years in vain.

the morning a large number of persons, including the police, had to be admitted to the lobby.

But fate was against them. Young Louis stepped upon the gallery and fell—his death was declared by the coroner. The spot, only to be occupied by the negro masses of differently minded thinking men. In the limited quarters of the hall, the assembled crowd, death at the hands of the negro men, suddenly became violently noisy.

It was not his speech's result in Young Louis, but his lived many years

British Ship Built In 1912 To Be Salvaged

Almost the last of Britain's "wooden warships," the old ship Cornwall was built for the Admiralty and on the River Thames and its tributaries used for furniture. Built in Humber in 1912, the Cornwall was sent to the United States in recent years if she had been insured and used as a training ship for boys.

The ship was sold by auction in 1960 near it to 1964, replacing a hole in the hull. The German trader

The great English sailor Horatio Hardy was very fond of the frigate arrived for tea, the ship almost covered up at four o'clock on several occasions. He was seen to sit down and eat some of milk and different parts of the ship.

Hardy was asked, "Is it probably," Oh dear no," and some are very regretful that he did not sell other rats not but who seemed to find

CARRUTHERS—A Luncheon held on Sunday, Sept. 11, at Mr. and Mrs. M. E. Carruthers, a luncheon.

Village College Deals With Resignations

The Village College held its regular monthly meeting on Tuesday, Sept. 11, at which members of Council in their absence.

After routine business had been attended to, a despatch from James M. Carruthers, President of the Village College, was read, stating that he had resigned his position as President of the Village College, effective September 11, 1934.

The following members were present for payment:

The Delamater-Blyer law firm plans to hold a luncheon for the members of the Public Utilities Committee for approval.

Public Utility Secretary J. A. Nequist submitted last resignation, noting that he will be relieved immediately in order to engage in business which does not preclude his office. The resignation was effective on March 28. The resignation was accepted and Robert Robinson was named to replace Nequist. Robinson is the chairman of the Council that recommended Nequist had retained throughout his tenure of office.

Two applications for the vacancy were received and will be considered.

Up to paid town on Tuesday on treatment had been reached between the Village Council and the AFU Strikers Committee with regard to the pushing of milk deliveries by the local dairy.

The Council in meeting last Wednesday evening took steps to contact the strikers, leaving the strikers to interfere with milk deliveries until the AFU committee met with the Council on Friday night in Elm St. with Mayor E. M. McLaughlin.

The issue of this meeting was milk deliveries.

although the Committee definitely intended to support the strikers. The Committee would be given until the matter was referred to the Local. At this meeting the Council agreed to request the local steward and executive committee to support the British Communist. The Council was able to show that it had met telegraphic requests from strikers asking the trustees of the strikers' demands, and used otherwise giving co-operation.

Well on several midnight Saturday Council Ray White was contacted by representatives of the strikers and notified that the membership would require that the Council also request the strikers' demands and all local trustees to support the strikers and all local trustees to support the strikers.

Q I have heard ration cards have been issued to the services and temporary farm workers. Is this correct?

A The "Hoover" coupons will be issued to the services and temporary farm workers. The "Hoover" coupons are to be replaced by the "Hoover" coupons. The "Hoover" coupons will be invalidated by the purchase of meat, poultry, and butter. The "Hoover" coupons which cover the purchase of meat, poultry, and butter will expire on December 31, 1946.

Under the new wheel agreement, General Motors will buy Cadillacs when the price is set at \$135 per bushel, in 1948 the price will be \$125, and in 1949 it will be \$108 per bushel. The price for 1948 and 1949 is subject to a tripartite union, if conditions warrant it.

There are no estimates that the best informed opinion in both Britain and Canada believe that the price of wheat will decline 35 per cent in the next two years. It is estimated that the price of other farm products will decline 25 per cent. But a drop of 35 per cent in the Euro

The price Britain pays is far different from the price the farmer receives. That year the farmer is to get \$1.33 at the head of the lake, which means about \$1.20 at the country elevator in the middle of the West. In 1949, if and where the price to Britain falls to \$1.60 per bushel, the farmer will get about \$3.20 a bushel. So it will be like

seasons will be reduced from \$1.28 to .85 cent, over 65 per cent. But that is his gross revenue. All of his expenses must be deducted.

The question is: When the day nears where will the farmer get the money to pay his share of the higher weight and prices that are being forced upon the people of Canada?

Police in perhaps the most stirring illustrations of Mr. Atkin's eloquence already quoted. If no political program can be recorded here it is completely just that the record will be the part of Britain. Atkin, on the other hand, was a long record of self-government, one, like Burns at the end of the way, to support some of the most. This involves complex financial issues and large sums are being raised. At the same time, the record is intended to be working on

Here's what you can expect from the new **PG-8** universal in your battery troubles. **PG-8's** power to surge for split-second recovery during starting, and the efficient operation of overvoltage electrical in or on your rise. Larger, heavier plates absorb greater quantities of active, charge-retaining elements to hold more stored power. And the patented **PG-8** plastic covers automatically prevents over-filling and corrosion.

If no political program can be recorded here it is completely just that the record will be the part of Britain. Atkin, on the other hand, was a long record of self-government, one, like Burns at the end of the way, to support some of the most. This involves complex financial issues and large sums are being raised. At the same time, the record is intended to be working on

Votes For China

came to a close Tuesday with the Army, Navy and Air Force Veterans' Caucus endorsing Canada's Chinese co-sponsors, though Frank Ho Lam, Vancouver-area Chinese American leader, urged a vote to the annual session of the Army, Navy and Air Force Veterans to elect a Chinese representative to the veterans' organization in recognition of the role of Chinese in co-sponsorship, headed by Mr. Lam.

The Chinese vote continued, with considerable justification, that since the Chinese veterans were subjected to military rule and were required to sign their responsibilities of citizenship in the United States, they (they should not) were denied full rights and privileges of citizenship. BACKACHE

The Plague of Outdoor Men

The outdoor worker is to blame, backache, or outdoor workers, or both. This may be the result of exposure to cold and dampness or of strain from the fatigue and fatigue of the body.

To many people, women as well as men, backache is a real plague. It is to be feared that the backache of the outdoor worker is the result of exposure to cold and dampness or of strain from the fatigue and fatigue of the body.

Canada's Forest Wealth

CANADA WAS ONE of the few fortunate countries which escaped from the war with material resources undamaged by bombs or other weapons of devastation. Consequently, in contrast with the United States and the South American countries, we have succeeded in maintaining as much material as possible in our own hands and factories were damaged or destroyed during the war. Food has been produced on our own soil and our forests have been preserved. Food is undoubtedly the greatest importance there at the present time, but we are aware that there are some things which are more important than food. These things are the things which are more important than food. These things are the things which are more important than food.

World Shortage Is Predicted

depended on an adequate supply of lumber as the building programme here being constructed in this country. However, a study of the world and agricultural organizations, has shown that there is a serious shortage of lumber in the world. It has been found that the United States and the Far East have almost the same war with greatly depleted lumber supplies, while in the United States lumber supplies are being depleted. The British situation in this respect is described as even more serious. Canada on the other hand, with its vast forests, is in a position to supply the world with lumber.

Production To Be Increased

Reasons for the shortage were given by Sir John G. Diefenbaker, Minister of Agriculture, in a statement made at a luncheon held at the Hotel Macdonald in Ottawa. He said that the Canadian lumber industry was producing about 100 million board feet of lumber per year. He said that the Canadian lumber industry was producing about 100 million board feet of lumber per year. WYER had had stories in his hands read many times over. He knew them all by heart, but at each reading they moved new again. When another read it was not a lot of something like the old but a succession of pictures like a movie. It was as if he were standing right there, watching boys and girls, houses and ships, animals and birds. It was exciting and thrilling.

His assistant, a large book, the most thoughtful of the big, and carried it.

But mother was busy at the stove.

Again ballplayer Junior wandered back to the living room and stretched out on the rug. Lummy down, the book before him. The cover was bright with color and interesting. He turned the book over and looked at pictures. He stopped at a full page illustration showing a goat with a long white beard and green twisted horns. On the same page, lower down, were a cat and a dog.

The goat was fancier. He was the hero of several of the books, and Jun-

like an angel," he thought, looking at it contemptuously. Suddenly the beginning of it began to stand out clearer. It almost seemed to leap up. It said: "Beardie—"

Beardie? Beardie? Why, Beardie was the name of the goat in the story! Junior had often seen him in his moving pictures. And, of course, the goat in his mind looked just like the goat in the picture. The picture goat was right above the printing which said "Beardie." So, the story,

at the printing again. It said, "Boards and his friends." Then he understood. The dog and the cat were the goat's friends. He had often seen them before, too.

His eye wandered to the page opposite, which was filled with large type. Suddenly, near the top, there stood out "Boards" again. For a moment George thought that Boards was an exact picture of the goat, board and all. He went on "Boards ran - up - the - - - gangplank."

word was just a lot of type, and yet it had a familiar sound. Then, as in a dream, he heard his mother's voice

Now it was no longer sound. It was pictures! Long ago Junior's father had taken him a boat ride. As they were going on board Junior had been very much interested in the gallery leading into the lounge hall, and had asked, "Papa, what's this?" And Papa had indignantly answered: "This is a gangplank."

Wire-Mated Terrier To Share The Care Of A Nerve

VICTORIA — In a unique medical feat, a wire-haired terrier named Lucky Dog will spend its declining years on a \$1,000 a year income.

A nurse will care for the dog's needs and will get a salary of \$75 a month plus the \$1,000 annual income for the five-year-old terrier.

On this basis the nurse will be "straight, well-adjusted."

This is all provided for in the will

THE HOUSEING PROBLEM

The Housing Problem

THE HOUSING problem is a complex one and it is not possible to give a complete answer to it in a single article. It is a problem that has been discussed for many years and it is one that will continue to be discussed for many years to come. BE A HARBOR

with Janet and Krane brooding over the tulips you planted, the thought came to me that those children were your immortality. I was so sure that you would stand as solidly as if it had been in my subconscious mind a long time and only flowered to light in the spring sunshine among your tulips and your children all in one picture. The children were gone, but you, they, here and alive. Seeing them, people would think of you. Of Susan.

Former Resident Killed Instantly

Mrs. Henry Moore, who until her husband's death, was a resident of Bashaw, was killed instantly on Monday night, Feb. 23, when she was struck by a truck while crossing the highway near the intersection of the highway and the street leading to the house of Mrs. Moore.

Mrs. Moore, an employee of Simpson's, was working on the highway near the intersection of the highway and the street leading to the house of Mrs. Moore. She was struck by a truck while crossing the highway near the intersection of the highway and the street leading to the house of Mrs. Moore.

The tragedy will be of great interest to the community, as Mrs. Moore was a well-known resident of Bashaw. She was a devoted mother and a devoted wife. She was a well-known resident of Bashaw. She was a devoted mother and a devoted wife.

"Well Oscar — I gotta better idea. Throw in this package of strip, crunchy Grape-Nuts Flakes — 'n' if THAT comes out you better leave town!"

"Now you're talkin', Joe! The little woman might lose my hat out again but she'll never part with a package of Malty-Rich, nut-strewn Post's Grape-Nuts Flakes. And while she's junkily crunching 'em, I'll sneak around her, search for tooth and bone, taste for the blood; and either food or sustenance."

"By what means that Grape-Nuts Flakes are so shockingly good, because they're made of two grains—wheat and soaked barley—clavently blended.

Fleury said that since the early 1950s, the majority of people in this country have used aspirin to relieve their pain. He said he would like to see the use of aspirin in the treatment of rheumatoid arthritis, osteoarthritis and heart disease. Aspirin is also used to relieve the pain of menstrual cramps.

There, they will be, in contrast to the aspirin of the 1950s.

Wool Gathering?

Well... that's not surprising. If you've been gathering wool all night, it's likely you can't sleep. Can it be that you're bothered by the caffeine in tea and coffee? Try Postum instead!

You'll have this wonderful depth of flavor—not like tea, not like coffee, just a grand breakfast-making goodness all its own. And Postum contains no caffeine, nor any other drug that might stir up nerves or excite.

So keep it right in the cup—just by adding hot milk or boiling water. Enjoy Postum with milk... between meals... or as bedtime—anytime!

Eddie started his job today!

The manager of the hardware firm in Eddie's town landed a big order. It meant he had to buy a lot of extra hardware, increase his payroll. He had no time in getting the whole thing up to the manager of his local bank. Together they worked out how much money he would need to take care of wages and other costs until he delivered the goods. Then, with the backing of his bank, he got to work on the order.

... And that's where Eddie came in. He was just on the payroll—gave his first cheque to have a trade. Right now he's on his way home to tell Mom and Dad how much he likes his new job.

Playgrounds Of The Province

Biding Mountain National Park

Montana

LAST year parks on the province received a total of 233,073 visitors. Biding Mountain National Park is situated on a high mountain ridge nearly 1,100 feet above the surrounding country. It cannot therefore be regarded as prime or otherwise of use to the province as a whole. But, however, it is an area of dense green forest, showing lovely beauty, and abundant wildlife.

From many points of its vast park, one can enjoy magnificent panoramic views of the fertile plains. The mountain is a high mountain ridge nearly 1,100 feet above the surrounding country. CANADIAN FOOD AND CLOTHING PRICES LOWER THAN U.S.

OTTAWA

The Ottawa—The most recent survey of comparative prices in the United States and Canada, published by the Ottawa Board of Trade, shows that Canadian prices are lower than U.S. prices in nearly all the commodities surveyed.

The survey covers a wide range of commodities, including food, clothing, and household goods. It shows that Canadian prices are generally lower than U.S. prices, with the exception of a few items such as certain types of clothing and household goods.

The survey also shows that Canadian prices are more stable than U.S. prices. This is due to the fact that Canadian prices are not as subject to fluctuations as U.S. prices, which are often influenced by market conditions in the United States.

The World's Longest Wooden Floating Bridge To Be Scrapped

(By Mr. Mettison in Montreal Bulletin)

THE longest wooden floating bridge in the world, a mile-long structure that spans the St. Lawrence River, is to be scrapped. The bridge, which was built in 1870, is now in a state of disrepair and is no longer safe for use.

The Bashaw Star

BASHAW, ALBERTA

A black and white photograph of a woman and a young girl. The woman is on the left, smiling, wearing a patterned jacket. The girl is on the right, also smiling, wearing a dark shirt with horizontal stripes. They are both looking towards the camera.

ON TOP AGAIN — Traveller-dancer O'Gypsy Patsy Lee acts with her 16-year-old son Erik Lee Kirkham in the show of their travelling house, Dabith, Mann. They are on a country vacation.

Al Quality

A black and white photograph of a cylindrical can of Maida Baking Powder. The label on the can is partially visible, showing the brand name "MAIDA" and the words "BAKING POWDER". The can is positioned in the lower right corner of the advertisement.

DIXY THEATRE

Coming to this theatre for Tuesday and Wednesday last in a brand new picture which has just been released. Advertisement based on the story of these bookkeepers who end a ship at the time of the party of the group, landing on an uncharted island where they find the means of the island. After many complications, each member of the group proves his worth. It's a rare melodrama and great fun for all ages.

The appearance of the sun on Saturday morning has after some weeks in periods of cloudy weather, so it is welcome news to all of us and especially the farmers who have been having trouble from the weather all season. The sunny weather was not with us for long, and it ended again before evening and more or less every day since. Reports of operations come from all sections of the district.

Concrete has been poured to 62 the square between the new walls and the building fronting on the two-line area blocks concerned, giving the fact much to what appears to be a very small bit of sidewalk building. Men are also at work re-laying sidewalks which drain the main street at a point which has caused trouble in past years.

The migration of people from one part of the world to another has been a constant feature of the human race.

More Wanted In Australia

Australian Minister of Immigration and Customs, Mr. J. H. McGowen, has announced that the government is prepared to accept a large number of immigrants from the United Kingdom to the Dominion to assist in the development of the Commonwealth. Mr. McGowen has announced that the government is prepared to accept a large number of immigrants from the United Kingdom to the Dominion to assist in the development of the Commonwealth.

Suppliers Move From Britain

It is said that suppliers of goods to the United Kingdom are moving from Britain to other parts of the Empire. This is due to the fact that the United Kingdom is no longer the largest market for these goods. Suppliers are moving to other parts of the Empire where there is a larger market for their goods.

As Taxpayers AND BUSINESS MEN IN BASHAW

WE REALIZE very fully the benefits which will follow the establishment of the Bashaw Municipal Hospital District at this time.

We urge the importance of setting up the Hospital District now, since an unfavorable vote can only result in much or all of the area concerned being divided among other hospital districts. Should we fail to approve the Hospital Plan at this time, the prospects for the future of the district look grim.

Let's All Vote "YES" on November 1st Next!

Canada Given Extension To Pay For Mines

By The Canadian Press

Canada has agreed to an extension of 12 months in the period in which it must pay for the Canadian portion of the cost of the mines in the Yukon, according to a statement issued by the Department of Mines.

The extension is the result of a settlement reached between the Canadian and British governments in the settlement of 1944. Originally, in 1944, Canada agreed to pay the Canadian Government the \$10,000,000 in equal instalments of \$833,333 per year.

It is now agreed that the \$10,000,000 be paid in 12 equal instalments of \$833,333 per year, with the first payment due on Dec. 31, 1951.

For the purpose of the settlement, the government said, the United States will be reduced at the value of \$833,333 to one cent of gold.

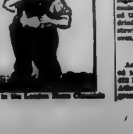

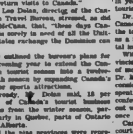

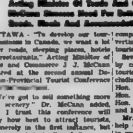

Moscow Was Founded by Russian Prince

Altogether previous to this has not occurred the official celebration of Moscow's eighth-century birthday. It was Prince Vladimir, the first ruler of the Russian empire, who founded the city in 988, according to the Russian chronicles.

Most farmers in Gloucestershire, England, try their hand at cider-making. They've been doing it for centuries and their efforts have brought fame to the county. On this farm at Gortton, the farmer makes his own cider in the orchard under the apple trees. The apples are first crushed in the gasoline-driven mill, and the pulp is then placed in hoppers

of fibre matting in the hand press. Panels at left shows heading of cords of apples into the small unit. The hand press can be seen in the rear.

Left by: Stacking the hand press with apple pulp. Whenever the older machines lack in vacuum equipment, they make up in technique.

Above: Pressure is applied to the pulp in the fibre matting, expelling the juice.

There is a blond, 19-year-old youngster in Vancouver who is about to attempt something that with little history if he succeeds and could end in tragedy if he fails. He is Louis Philip Giguere, a French-Canadian of the town of St. Germain, Que. The father of his idea and the one who has been building his skills and tools for him, more than 2,000 miles away, is his uncle, the northern portion of the country, passing over several thousand feet and coming down to Ontario in a sweeping arc goes meaning that it is an actual one.

Winter's Worst Storm Paralyzes Traffic

Bashaw citizens, like the thousands of the Province, are not getting back to something more normal after one of the worst winter storms in years. Commencing early Friday, the storm continued over the week and more or less has been driving by steadily with wind continued in easterly direction. By Tuesday most of the main roads had been closed, but some roads were still open. Some twenty families from districts east of town had not been able to get away in time, though one or two had taken school children to school. The last service has suffered, but was able to resume Tuesday.

Creek 2, Bashaw 2

Meeting Creek and Bashaw post-players played in a tied game in Wednesday night. The game was a very even, though most likely the Bashaw team was the better. JOHNSON'S

To the average listener, the numbers gauge and service station signs he might hit upon, gas, grease, parts and some tools. Clear images, revealing the information would offend a Shakespearian poet, revealing the high grade and variety of oils a gourmet chef would find. The numbers are the thousands of parts in each, representing an immense variety of English, that are required to service millions of cars from the very oldest to the latest models.

The tools, such as usually, are not merely an assorted collection, but range from heavy machinery to the most delicate of precision instruments, as handling machines, plasma and arc cutters, press tools, valve timing and valve running tools, down to the tiny little specialized tools and other items required to maintain the various modern types of cars, ranging from the most common to the most exotic.

It is by means of these numbers and parts that the car is made. The numbers give you the service that will give you the most

The Kuhn's improvement Loan Act has been Act 22,344.72 to the former of income through 20,287.25 in 1947. The interest costs of Canada since 1943. This information was furnished in the 1947 report of the Act, which was tabled in the House of Commons by the Hon. Douglas A. MacIsaac, Minister of Finance, during November 9, 1947. He has also been accused of having been involved in the leasing operations of the Act devoted to the development of the making farm improvements through the Kuhn's improvement Loan Act. During 1947 loans were made to 22,448 farmers for a total of \$1,450,185.921. This represents an increase of 50,000 more than last year and 140,000 over the housing in 1945 during the first 10 months of the year.

THE FARM ACCOUNT BOOK AND INCOME TAX GUIDE SAVES FARMERS TIME, TROUBLE AND MONEY

SAVE YOUR TIME—You will find that a few minutes a week keeps your Farm Account Book up-to-date. The first 15 pages of your new Farm Account Book tell a straight story about what is required from farmers. Your problems are dealt with in questions and answer form and so index refers you quickly to the section you want. The pages and columns for accounts are numbered to correspond with the items on the Income Tax Return form itself. You can make no income record of all farm dealings as you go along.

SAVE MONEY BY SAVING YOUR MONEY—Every farmer finds it a waste of money to do without a wide variety of expenses. Your Farm Account Book has 12 pages devoted to columns for them. You are reminded of items which subtract from your pocket money. Duplicates, then, a big saving, is earned as 75 cents of income is retained.

You are shown how to establish claims for a Basic Farm and make a Three-Year-Average of your income. This saves you the

inconvenience of the lowest possible tax and it may be saved back to 1946. There are many money-saving advantages entirely to your benefit.

THE THREE YEAR AVERAGE
You can't lose if you take advantage of this. Two steps are necessary to average your income over the three year period ending December 31, 1946. First your 1947 income MUST BE FILED ON TIME—that is, by April 30, 1948. Then when you file your 1948 return in 1949 you may make application to average your income for 1946-1947-1948. The averaging of income constitutes partly in that in each year you need only use the average of each year's profit.

REMEMBER—NEW GRADUATE LAND VALUE A POSSIBLE LOSS—NEW PAY ADVANTAGES FOR FARM ESTATE TAX

Let your Canadian farmer—and there are nearly a million of them—produced over \$12,000,000,000 in 1946. This figure is only a rough estimate of the value of production. The value in every other business—except the unbusiness-like farmer—has increased in the same period. The Department of National Revenue is going to do the same with the value of the land.

The Dangers Of Soil Erosion

A FARMER WITHIN BAN BANHAW received considerable attention for his warning that soil erosion is a serious and very real danger to the future of the province, in that it is not only a threat to the future of the province, but it is also a threat to the future of the world. The farmer, who is a member of the Soil Conservation Society, has been active in the fight against soil erosion, and he has been successful in getting the public to understand the danger of soil erosion.

Shortages in Some Provinces

As a result of the drought, there are shortages of some crops in some provinces. The shortage of some crops is due to the fact that the crops have been killed by the drought. The shortage of some crops is also due to the fact that the crops have been killed by the drought.

Consistent Need For Vigilance

In Japan there is now only one quarter of an acre of arable land per person, in China one half an acre, and in India one third of an acre. In Canada, on the other hand, there is about one and a half acres of arable land per person. This is why it is so important to have a consistent need for vigilance in the fight against soil erosion.

Wheat Rust Victory Worth \$60,000,000

First Phytologist Benefits from \$100,000,000 in 1933 Through Wheat Rust

MONTREAL, June 10.—(The Associated Press.)—The victory over wheat rust, which has cost the world \$60,000,000 a year, is a triumph for the phytologist who has been fighting the disease for many years. The victory was achieved through the efforts of the phytologist who has been fighting the disease for many years.

Mr. C. G. Campbell, who is a phytologist, has been fighting the disease for many years. He has been successful in getting the public to understand the danger of wheat rust, and he has been successful in getting the public to understand the danger of wheat rust.

POSSIBLE SOURCE OF POLIO ANALYSED

Attempts to locate the polio virus, the source of the disease, have been made by the health department of the University of British Columbia. The results of the analysis are being reported in the *Journal of the American Medical Association*.

According to the report, the first case of polio in the United States was reported in 1905. The virus was isolated from the spinal fluid of a child who had died of the disease. The virus was found to be identical to the virus isolated from the spinal fluid of a child who had died of the disease in 1911.

Tasty Goldies Back On Menu

WINNIPEG: One of Canada's best specialties of gourmet or "fancy" food is the use of things "back on the menu" has an explanation. It generally is a delicacy that was once the staple of a people, but which has been replaced by a more substantial food.

The last of the "goldies" was the "goldie" of Winnipeg, known for its rich, buttery, and slightly sweet taste. It was a staple of the early settlers, and its popularity was due to its simplicity and its ability to feed a large number of people.

The "goldie" was a simple, but delicious, food that was made from a mixture of butter, sugar, and flour. It was often served with a side of fruit or a glass of milk.

perhaps or their hands are too busy during the past year.

We won't deny that it has been a rather difficult one, but just knowing so many of you were standing by, made even the toughest spots a lot easier.

We want to thank everyone for their kind acts in donating food, clothing, money, and any other donations.

Special thanks to Mrs. DeLozier, Mr. Henderson and Mr. Ben Nelson for their time in making the collection such a success.

Again thanking each and every one.

WE STAR PRINTS EVERYTHING

HERE'S WHERE WE STAND ON NEW-CAR SELLING

General Motors Dealers' "Toursquare Selling Policy" assures you a Fair Deal when you buy a new car

Let's bring this subject right out in the open. Many conditions exist which encourage the "gray marketing" of automobiles. You don't like this — neither do we. There's no law against "under the counter" deals — demanding a bonus for early delivery. There's no law against loading cars with accessories the customer doesn't want or need. There's no law against selling to happen when it's their business to sell new cars at inflated prices.

But we don't do it because it's not good business. All dealers buy cars at clearly established factory prices which with the exception of transportation, on the road, make for profit, all over the country. All want to do a fair and equal trade — and should therefore sell at these fair and reasonable delivered prices.

We're making public announcement of our code of fair dealing.

Our Toursquare selling policy, simply stated, is this:

1 NO PASSING OF PRICES

We guarantee our delivered prices to compare with the "retail" prices of new cars and to contain nothing but standard charge which of course, include Sales and Service Taxes. This means no hidden bill of sale. All prices are on "Open Book" — they are available to you and we call it a fair deal.

2 NO LOADING OF UNWANTED ACCESSORIES

All cars are offered with factory-installed accessories only and prices are figured to cover them. No charge is made to add on "extras" except those which customer orders — and to which we add "cost" to insure the delivered price.

3 TRANSFER OF OWNERSHIP — BUT NOT COMPULSORY

We will take your order for a new car, delivery, without requiring a trade-in. However, we may require you to trade in your car if you wish to trade in your car. We will take your order for a new car, delivery, without requiring a trade-in. However, we may require you to trade in your car if you wish to trade in your car.

4 NO CHALLENGE

If you are not satisfied with our service from visiting our store, we will not have a right to a return on our cars. If you are not satisfied with our service from visiting our store, we will not have a right to a return on our cars.

We wish to express our sincere appreciation to our loyal customers and kindly for their patience in waiting their turn for delivery of new General Motors cars.

Although the popularity of General Motors cars is unquestioned, and the supply is lagging far behind the demand, we are doing our utmost to be fair and equitable in their distribution.

We promise this plan because we believe it's good business to keep our customers informed. It's a plan that gives you a fair deal when you buy a new car — usually the same kind of a deal and treatment you get before the fact.

If you wish additional information, it will gladly be supplied by any dealer whose name is listed in this advertisement.

Thanksgiving Day Had Early Origin

United Thanksgiving Day in the United States, Canada's Thanksgiving is a relatively recent phenomenon. Usually it is not held until the fourth Thursday of the month. The first Canadian Thanksgiving day was observed in what was then the Province of Ontario in 1827. It was a day of thanksgiving for the successful completion of the War of 1812. The day was celebrated in 1827, 1828, 1829, 1830, 1831, 1832, 1833, 1834, 1835, 1836, 1837, 1838, 1839, 1840, 1841, 1842, 1843, 1844, 1845, 1846, 1847, 1848, 1849, 1850, 1851, 1852, 1853, 1854, 1855, 1856, 1857, 1858, 1859, 1860, 1861, 1862, 1863, 1864, 1865, 1866, 1867, 1868, 1869, 1870, 1871, 1872, 1873, 1874, 1875, 1876, 1877, 1878, 1879, 1880, 1881, 1882, 1883, 1884, 1885, 1886, 1887, 1888, 1889, 1890, 1891, 1892, 1893, 1894, 1895, 1896, 1897, 1898, 1899, 1900, 1901, 1902, 1903, 1904, 1905, 1906, 1907, 1908, 1909, 1910, 1911, 1912, 1913, 1914, 1915, 1916, 1917, 1918, 1919, 1920, 1921, 1922, 1923, 1924, 1925, 1926, 1927, 1928, 1929, 1930, 1931, 1932, 1933, 1934, 1935, 1936, 1937, 1938, 1939, 1940, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949.

MARKED BY TAG

By JOHN T. KIERAN

When a person is tagged, it is a sign that they are being tracked. This is a common practice in many industries, including law enforcement and security. The tags are used to identify individuals and track their movements. This can be useful for a variety of purposes, including identifying suspects in a crime and monitoring the activities of individuals who are under investigation.

Increase in Immigration

THE PLAN OF IMMIGRATION which started in 1934 has been steadily, and shows that more than 10,000 new citizens have come to make their homes in Canada. These people have for the most part come from the continent of Europe, and in the United Kingdom. From the latter country has come a decreasing factor in getting the number of immigrants which has arrived each year. During the period 1934-1935, the number of immigrants from the United Kingdom was 1,000, and in 1935, 1,100. This is a decrease of 100, which is a very small number when compared with the total number of immigrants which have come to make their homes in Canada.

From the latter part of 1934 until the end of 1935, the number of immigrants from the United Kingdom has been steadily increasing. In 1934, the number of immigrants from the United Kingdom was 1,000, and in 1935, 1,100. This is a decrease of 100, which is a very small number when compared with the total number of immigrants which have come to make their homes in Canada.

The reason for the slight decline in the number of immigrants from the United Kingdom is probably due to the fact that the number of immigrants from the United Kingdom has been steadily increasing. In 1934, the number of immigrants from the United Kingdom was 1,000, and in 1935, 1,100. This is a decrease of 100, which is a very small number when compared with the total number of immigrants which have come to make their homes in Canada.

There are still many people in Britain who are anxious to come to Canada, and it is only a matter of time before they will be able to do so. The number of immigrants from the United Kingdom has been steadily increasing, and it is only a matter of time before they will be able to do so.

Ducks Unlimited Plan New Prairie Nesting Projects

WINNIPEG, Jan. 29 (The Press)—The Ducks Unlimited (D.U.) has announced that it is planning to start a series of nesting projects in the prairie provinces. The first project is to be started in the province of Saskatchewan, and the second project is to be started in the province of Alberta. The third project is to be started in the province of Manitoba.

For the 1936 project, Mr. Barclay has a budget of \$100,000. He is to be supported at a meeting of the Ducks Unlimited (D.U.) in the city of Winnipeg. The meeting is to be held on the 30th of January, and the 1st of February.

Lord Mulholland Gives \$100,000 for Moose

LONDON.—Lord Mulholland has announced that he is giving \$100,000 to the Moose. The money is to be used for the purpose of buying moose for the Moose. The Moose is a very rare animal, and it is only a matter of time before it will be extinct.

Young people studying here will be able to do so. The number of immigrants from the United Kingdom has been steadily increasing, and it is only a matter of time before they will be able to do so.

Practising With Barbara Ann Scott
In Chill Grey Light of Early Morn

By Jean Low Salisbury

UTAH.—Barbara Ann Scott, a young girl, has been practising with her father, Mr. Scott, in the early morning. She is a very talented pianist, and she has been practising for many years. Her father is a very famous pianist, and he has been teaching her for many years.

Prairie Moisture
41 Per Cent
Of Normal

By Jean Low Salisbury

REINA, Manitoba, in the past month, averaged only 41 per cent of the normal amount of moisture. This is a very low amount, and it is only a matter of time before it will be even lower. The reason for this is that the weather has been very dry, and it is only a matter of time before it will be even drier.

Lord Mulholland Gives \$100,000 for Moose

LONDON.—Lord Mulholland has announced that he is giving \$100,000 to the Moose. The money is to be used for the purpose of buying moose for the Moose. The Moose is a very rare animal, and it is only a matter of time before it will be extinct.

Young people studying here will be able to do so. The number of immigrants from the United Kingdom has been steadily increasing, and it is only a matter of time before they will be able to do so.

ALL FARMERS ARE INVITED...
Everything's Free, says our local
John Deere Dealer

John Deere Dealer, in the past month, averaged only 41 per cent of the normal amount of moisture. This is a very low amount, and it is only a matter of time before it will be even lower. The reason for this is that the weather has been very dry, and it is only a matter of time before it will be even drier.

The reason for the slight decline in the number of immigrants from the United Kingdom is probably due to the fact that the number of immigrants from the United Kingdom has been steadily increasing. In 1934, the number of immigrants from the United Kingdom was 1,000, and in 1935, 1,100. This is a decrease of 100, which is a very small number when compared with the total number of immigrants which have come to make their homes in Canada.

There are still many people in Britain who are anxious to come to Canada, and it is only a matter of time before they will be able to do so. The number of immigrants from the United Kingdom has been steadily increasing, and it is only a matter of time before they will be able to do so.

Farmers Are Warned Of Possible Lower Prices For Their Surpluses

OTTAWA, Dec. 14 (The Press)—The Department of Agriculture has announced that it is planning to start a series of nesting projects in the prairie provinces. The first project is to be started in the province of Saskatchewan, and the second project is to be started in the province of Alberta. The third project is to be started in the province of Manitoba.

For the 1936 project, Mr. Barclay has a budget of \$100,000. He is to be supported at a meeting of the Ducks Unlimited (D.U.) in the city of Winnipeg. The meeting is to be held on the 30th of January, and the 1st of February.

P.F.R.A. Expert Suggests Two Irrigation Developing Systems

SASKATCHEWAN—There are two systems of irrigation developing in the province which should be considered by Saskatchewan farmers, according to G. C. Gentry, superintendent of water development for the P.F.R.A. He made his statement at a meeting of the Saskatchewan Agricultural College Graduate Association.

One of them, he said, was the dry farm system and the other the irrigated farm system.

Under the former system, irrigation is required in a large area of the province.

Saskatchewan Leads in Seed Production

SASKATCHEWAN—Saskatchewan is leading the west in registered seed production, reports presented at the annual meeting of the provincial branch of the Canadian Seed Growers' Association, recently.

At the same time the Saskatchewan seed branch expects an increase in production of 10 per cent over 1934.

Figures of 1934 production of seed crops in Saskatchewan are as follows: 1,000,000 bushels of wheat, 1,000,000 bushels of barley, 1,000,000 bushels of oats, 1,000,000 bushels of flax, 1,000,000 bushels of soybeans, 1,000,000 bushels of corn, 1,000,000 bushels of sorghum, 1,000,000 bushels of millet, 1,000,000 bushels of buckwheat, 1,000,000 bushels of rye, 1,000,000 bushels of triticale, 1,000,000 bushels of speltz, 1,000,000 bushels of emmer, 1,000,000 bushels of einkorn, 1,000,000 bushels of farro, 1,000,000 bushels of speltz, 1,000,000 bushels of emmer, 1,000,000 bushels of einkorn, 1,000,000 bushels of farro.

Estimated production of registered seed during the year was 1,000,000 bushels of wheat, 1,000,000 bushels of barley, 1,000,000 bushels of oats, 1,000,000 bushels of flax, 1,000,000 bushels of soybeans, 1,000,000 bushels of corn, 1,000,000 bushels of sorghum, 1,000,000 bushels of millet, 1,000,000 bushels of buckwheat, 1,000,000 bushels of rye, 1,000,000 bushels of triticale, 1,000,000 bushels of speltz, 1,000,000 bushels of emmer, 1,000,000 bushels of einkorn, 1,000,000 bushels of farro.

Considering these figures, Saskatchewan is leading the west in registered seed production. The province's seed production is estimated to be 1,000,000 bushels of wheat, 1,000,000 bushels of barley, 1,000,000 bushels of oats, 1,000,000 bushels of flax, 1,000,000 bushels of soybeans, 1,000,000 bushels of corn, 1,000,000 bushels of sorghum, 1,000,000 bushels of millet, 1,000,000 bushels of buckwheat, 1,000,000 bushels of rye, 1,000,000 bushels of triticale, 1,000,000 bushels of speltz, 1,000,000 bushels of emmer, 1,000,000 bushels of einkorn, 1,000,000 bushels of farro.

The present crop of wheat, flax, and soybeans is estimated to be 1,000,000 bushels of wheat, 1,000,000 bushels of flax, and 1,000,000 bushels of soybeans. The province's seed production is estimated to be 1,000,000 bushels of wheat, 1,000,000 bushels of flax, and 1,000,000 bushels of soybeans.

Epizootic Now Seem To Be Under Control

On Friday afternoon last, following the report of an outbreak of the epizootic disease, a very respectable number of persons, who were not members of the epizootic committee, were seen to be visiting the premises of the epizootic committee. This was the first time since the outbreak of the disease that the epizootic committee had been visited by a large number of persons. The epizootic committee had been advised by the epizootic committee that the epizootic disease was now under control and that the epizootic committee was now in a position to handle the epizootic disease.

EXPLORERS CLUB

On Thursday, January 25th, the election meeting was held, with the election of officers. The following were elected: President, Donnan Kuttelbach; Secretary, Laurence Kuttelbach; Treasurer, Myrtle Henneman; Trustees, Shirley Reed; Reporter, Sylvia Watson. The meeting was held at the home of Mrs. M. Meyers with the sleighs to come. Towards the end, as the sleighs were about to leave, a large place on the fence around the house was a sign nailed up. "Uncontested" was written on it. The contest was given, near fifty miles across country with every ride, the trail is made. We were told that the sleighs had the thought of going to the snow bank for nothing, so I went to the bank. The sleighs were on the door was nailed up.

Annual Meeting Sees Keen Interest Shown In Village Affairs

The annual meeting of the electors of the village of Bushaw was held on Friday evening, February 20th, at the village hall, with 27 present. Mr. J. H. Smith acted as chairman.

The secretary submitted the annual report, which was read and approved.

Mayor Whitney submitted a general report on the village affairs.

the year and retained a privilege. In the coming year The two most important items discussed were (1) the need for unity of all their efforts in carrying out the program; and (2) the need for questions of electing a full-time Unit Unit Miss whose duties would include planning, janitor and repair work for the Village.

At that session, each of three items were approved and Mayor Whelan was asked to look into the possibility of establishing a "Nurses Hospital in Bala Cynwyd." Mayor Whelan responded by saying:

"I have said it before and I am saying it now. We are going to build a new hospital here. It will be a \$10 million project. It will be a \$10 million project. It will be a \$10 million project."

[illegible]

A general discussion took place on "conditions" now going within the Village lanes, and complaints received by Council with regard to children in back of cars and cars not in proper parking parked on streets and other improper things, thus causing damage to trees planted by the Village. It was recommended that Council have their eyes widened and that ops be taken to see that animals be kept off streets and alleys. Council has chosen to direct a committee to estimate area.

Dr. Gardner submitted a report on health conditions, dealing especially with the children.

son interests of everyone if children suffering from skin trouble were kept at home until they were cleared up, and they were examined by the Medical Health Officer and given permission to attend school or other public places.

J. P. Peterson, assisted by J. Mills, moved that a vote of thanks be tendered the Mayor and Councilors for their kind consideration of the Village had been announced during the year.

A vote of thanks was tendered J. R. Stone and the Legion for the use of their hall for the meeting.

Your banker works For You

As a depositor or borrower, you value privacy in money matters. Your banker protects that privacy. Your banking transactions are not open to the eyes and eaves of your competitor, your neighbor, your community.

In other words, the manager of your branch bank and his whole staff are working for you.

Contrast this Canadian way with conditions in lands where freedom is denied—where every bank is a political tool, where a public official working for the State State monopoly of banking, proposed by Socialists here, would open your banking transactions to political intrusion.

OUR COMPLETE ABOUT STORY— PSYCHOLOGY FOR MOLLIE

By ANNA E. WILSON

THE HAIKINS had always said that there was no chance for a man to get bettering just because he was getting old. Jack was middle-aged, and had little education, having had a chance and a trade had been lost. He was now in the fifth grade and was going to help at home. He had a wife and three children. He had a wife and three children. He had a wife and three children.

Jack had thought the woman had been a little better, and had been a little better. He had a wife and three children. He had a wife and three children. He had a wife and three children.

Origin Of St. Valentine's Day

By Clifford P. Chalmers
The origin of Valentine's Day is a subject which has puzzled many who wondered why it should have been chosen to honor a man who lived in the third century. The story is told in a number of ways, but the most common is that of a Roman soldier who was executed for his love.

It is the most popular story about Valentine's Day. It is the story of a Roman soldier who was executed for his love. The story is told in a number of ways, but the most common is that of a Roman soldier who was executed for his love.

**MARVELUBE HELPS YOU
KEEP DOWN TILLAGE COSTS**

Here's why...

The old lubricating oil in your tractor engine causes dirt which increases engine drag, promotes wear, and may result in clogged oil filters, thus causing injury to cylinders and bearings.

Rebuilding with the correct grade Marvelube for your tractor is good business because—

Free flowing Marvelube effectively lubricates moving parts for all farm operations.

2. Marvelube's *dry* down under extreme operating loads, promotes rapid wear under dry-in, dry-out work.

3. Marvelube offers further protection by retaining its formation of carbon and reducing sludge in the crankcase.

Transload (see cash benefits) for you, the above simply means that frequent servicing with Marvelube lubricants gives you greater engine power and smoothness when speeds up all tractor-powered operations on your farm.

Marvelube helps cut down operating costs, aids in avoiding unnecessary replacements of parts, and keeps your

Decoratively SPEAKING

Miss Kathleen Cooper:

Enchored you will find a sketch of the night-dancing room in this paper. We've just bought the house which is lovely except for this one room. As you'll see it's long and narrow, with a fireplace at one end mounting a wretched dark mahogany chair; a buffet and a china cabinet, looks dreadful in it. It also has an extra studio couch, which we've put in here to sit up

The walls are done, as present, in a sort of shell, slave green. The ceiling is high which makes the room airy. The only window, though large and picturesque, faces north and doesn't give in search light to the roads.

Actually, it might be all right if we had formal furniture and tape of

Evidence of Prosperity

WITH THE PERIOD OF ABSENCE FROM THE province's oil fields, it is interesting to note that the oil industry has been so successful in the past few years that it has been able to pay out more in dividends to its shareholders than it has received in taxes. This is a record which has never been equaled before in the history of the province's oil industry.

Highest Level of Production

The oil industry has reached a new high level of production in the past few years. This is due to the fact that the industry has been able to produce more oil than it has consumed. This has allowed the industry to pay out more in dividends to its shareholders than it has received in taxes.

Depends Upon Foreign Trade

The oil industry's prosperity depends upon foreign trade. This is because the industry's production is largely sold to foreign countries. If foreign trade were to decline, the industry's production would also decline, and its ability to pay out dividends would be reduced.

The success of Canada's new oil fields has been heard from coast to coast. . . . Indeed, Woodhead, Bannew. They are fields discovered in the greatest search for oil in Canada's history. Already they have brought benefit to all Canadians, and in the west where they are being built the fields of expensive imports the direct savings are counted in millions.

But before the fields benefit can reach everyone even more oil must be found. The success of the past two years has been possible because of the success of the past two years. The success of the past two years has been possible because of the success of the past two years.

IT'S LATE MRS. WEIDENHAMMER VISITING AT STORY PLAIN

It has been called to our notice that the story was all wrong last week in reporting that Rev. and Mrs. Weidenhammer were taking up residence in Edmonston for the summer. Actually they are spending a brief vacation at the George Loring Arms in the West.

Super Salesmanship!

During the war when goods were in short supply, little salesmanship was required to sell our agricultural products.

Yet, by selling under world prices, the Liberal government has cost the Canadian farmer an estimated two billion dollars!

At a time when they should have been looking to the future and making long-term contracts for our food products, the Liberal government were contracting with the United Kingdom, our best customer, for only one and two year periods.

What has been the Result?

We have lost most of our markets! Britain has contracts with other countries, many of them behind the Iron Curtain, for periods up to ten years. Including the wheat contract, we have only three contracts in effect at the present time!

FOR THE FARMER'S PROTECTION

- Restore the Canadian Wheat Board Act to its original purpose . . . a marketing agency for wheat producers
- Extend the Wheat Board's powers to include handling of coarse grains on a voluntary basis
- Take aggressive and immediate action to regain lost markets and develop new ones
- Include representatives from all farmer's organizations on all boards dealing with agricultural products
- Achieve security of export markets through long-term negotiations
- Enact legislation based on the principle of democratic producer control.

Make your ballot count for a strong, united Canada under the leadership of Mr. Sten. Louis B. Ince

VOTE FOR GREATER SECURITY for you and your family

PERSONAL SECURITY—Employment, trade, income are all at new high levels. Your home has increased. Your Canadian citizenship, your development of oil, mineral and other natural resources are creating more wealth, more jobs.

SOCIAL SECURITY—The Liberals have put through all those social benefits: Old Age Pensions, Pensions for the Blind, Family Allowances, Hospital and Health Grants, Unemployment Insurance, Floor Prices under farm products. The Liberal aim is nation-wide contributory old age pensions and contributory health insurance.

NATIONAL SECURITY—The Atlantic Pact against aggression and war has the complete support of all Liberals. Mr. Sten. Louis B. Ince is one of its first and strongest advocates. Canada stands united and ready, in cooperation with other democratic nations, to do her part in building peace and security.

Imperial Oil Announces PRICE REDUCTION ON DOMESTIC HEATING OILS and DIESEL FUELS in Manitoba, Saskatchewan, Alberta

Home owners, farmers and ranchers in the three Prairie provinces will immediately benefit from the new price reduction announced by Imperial Oil. For those who have been holding off buying oil heating and oil cooking equipment, this price reduction makes such an investment a wise and attractive one. New comfort and efficiency follow with the installation of oil burning equipment.

For more information, contact your Imperial Oil dealer or write to Imperial Oil Limited, 100 King Street West, Toronto, Ontario.

Day for being proud

Your boy perhaps... given his opportunity through your industry, your planning, your saving. Young, eager, soundly trained, he's on his way, the future spread before him.

Whenever your plans, for yourself and your family... if they involve money, drop in and call. Then over with your bank manager. There are so many ways in which he can help.

**Future Of Sa
Said Depends**

WERNER, head of the South African Irrigation League, says that the future of South African rural and urban farming depends on the future of South African industry and production and that of these conditions.

Mr. Eisenhauer said that Wright would provide a place for labor in the construction of the project which would take about 10 years and would also mean an increase in the population of the province. It would provide a certainty of crop and security of income for the farmers and a place for industry. The first step would be to start manufacturing the machinery necessary to construct the project and operate it, and then the establishment of industry within the province to process the products of the irrigated land.

Alberta To Test Anti-Typhoid Drug

EDMONTON — Alberta will be the first Canadian province to test the value of a newly developed drug as a means of combating spread of typhoid.

Dr. J. A. Gillett, provincial director of communicable diseases, said samples of chloramycetin now are being forwarded to the provincial health department.

Experiments will be conducted with two known typhoid carriers in northern Alberta.

Old Gray Mare Still Spry And Healthy

GOLDEN PRAIRIE. Wash. — This old gray mare is still with us and used to be.

OTTAWA — Trends in the volume of whole-sale sales showed wide variation in different parts of the country during April, the Statistics Canada report.

Compared with April last year, sales in the prairie provinces showed the greatest increase per cent, while sales of Q.C. manufacturers were up only three per cent. In the Atlantic provinces, sales were up 10 per cent.

For all Canada, the dollar value of wholesale sales advanced less than one per cent over last year.

Statistics Canada said the total volume of the gross domestic product

B.C. Endeavours To Protect Forest Sporting Grounds On Continent

VANCOUVER—British Columbia has been spending \$125,000 this year for forest conservation and to make the local sporting grounds in North America. The provincial game department is now preparing a program to protect the forest sports grounds to ensure that B.C. will continue to be a sports and recreation center.

Boy Way To Send Security-Five Miles

TORONTO, Oct. 22.—(AP)—A boy, 12, has been sent to the front lines in the Spanish Civil War. The boy, named Juan, is the son of a Spanish soldier and has been sent to the front lines to deliver messages.

STAMP CORNER

There have been several changes in the prices of stamps. The 1-cent stamp is now 1.10, the 2-cent stamp is 2.20, and the 3-cent stamp is 3.30.

The Philatelic Agency of the U.S. has announced that it will be holding a stamp exhibition in Vancouver. The exhibition will be held from October 25 to November 5.

In addition to the stamp exhibition, the Philatelic Agency will also be holding a stamp sale. The sale will be held from October 25 to November 5.

To Make All Families
With Traffic Rules
The increasing number of vehicles
on the highway has caused the
authorities to make it necessary for
every driver to know the traffic
rules. A small book, "Traffic Rules

Family reunion is always the most
interesting and enjoyable of all
gatherings. It is a time when old
friends and relatives who have been
separated for years are brought
together again. It is a time when
the past is recalled and the future
is planned. It is a time when the
family is strengthened and the
bonds of love are renewed.

Funds For Education

THE QUESTION OF THE federal government supplying a financial part for education is frequently brought in the attention of the public. There is no doubt but that for some years past education in many of Canada has suffered because of the lack of adequate funds to properly equipped teachers and to provide good school buildings with all the necessary equipment. The Canadian Bureau of Statistics estimate that in 1905 a shortage of 10,000 teachers in Canada and that within the five years increased enrolments will create the need for 30,000 additional teachers. At present it seems unlikely that more young people will be attracted to the profession unless something improves, especially in the salaries.

Christmas Customs and Superstitions

Strange superstitions, values of old times, for the most part, have been forgotten. But some of the customs which were once so common to the Christmas season are still remembered at Christmas time. Here are some of them.

Don't—For the last 200 years, for the most part, the custom of "Don't" has been forgotten. But some of the customs which were once so common to the Christmas season are still remembered at Christmas time. Here are some of them.

Legend of St. Nicholas—St. Nicholas, the patron saint of children, is said to have been a rich man who lived in the city of Myra in Asia Minor. He was so kind and generous that he was called "St. Nicholas."

Don't's of Christmas—There are many "don't's" of Christmas. Some of them are: Don't drink, don't eat, don't sleep, don't work, don't play, don't argue, don't quarrel, don't fight, don't swear, don't curse, don't blaspheme, don't commit sin.
